The screenshot shows the 'Mini-Pokedex' application window. It features a large empty rectangular box on the left for a Pokémon image. To the right of this box is a vertical stack of eight empty text input fields. Below these fields are two buttons: 'Agregar' (Add) and 'Editar' (Edit). At the bottom, there are two dropdown menus labeled 'Filtrar tipo1:' and 'Filtrar tipo2:', both currently set to 'N/A'. Below the dropdowns is a search bar labeled 'Buscar:' with the placeholder text 'Nombre del Pokemon'.

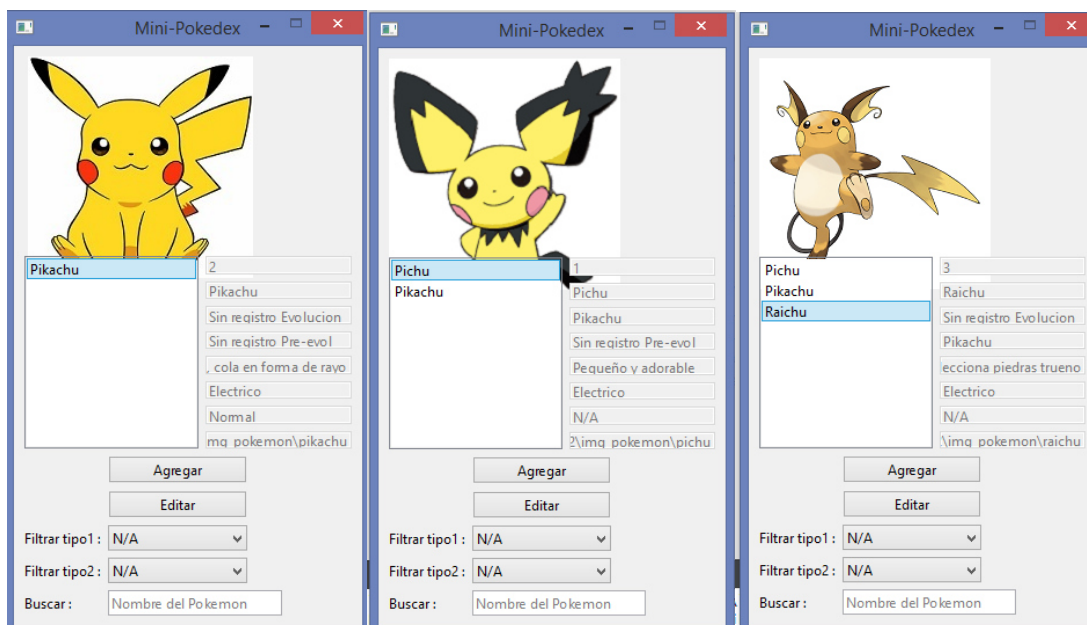

This screenshot shows the 'Mini-Pokedex' application with the 'Agregar' (Add) dialog box open. The dialog box has a title bar that says 'Mini-Pokedex Agregar'. It contains several input fields: a text box for the ID (containing '1'), a text box for the name (containing 'Pikachu'), a text box for 'ID Evolucion:' (containing '3'), a text box for 'ID Preevolucion:' (containing '2'), a text box for 'Descripcion:' (containing 'Poderoso'), two dropdown menus for 'Tipo 1:' (set to 'Electrico') and 'Tipo 2:' (set to 'Nomal'), and a text box for 'image path:' (containing 'pokedex2\\img\_pokemon\\pikachu'). At the bottom right of the dialog are 'OK' and 'Cancel' buttons. In the background, the 'Mini-Pokedex' window is visible, showing the same interface as in the first screenshot.
